

Introduction of MATSUNAMI GLASS IND., LTD.

● Our brilliant 177-years history

MATSUNAMI GLASS IND., LTD is a fine glass manufacturer and processor established in 1844.

Our origin was a manufacturer of thin mirror for ladies who wanted to check Japanese traditional hair style in Edo era.

We were good at producing and processing thin glass, so that we expanded our business domain to slide-glass and covering-glass for medical application.

And, around 50 years ago, we started manufacturing and processing various glass for electrical and optical application.

During 177 years history, we are implementing new activities to meet customers' requirements.

● Corporation Identity of MATSUNAMI GLASS IND., LTD

We are the first company who produced covering-glass and slide-glass for microscope in Japan.

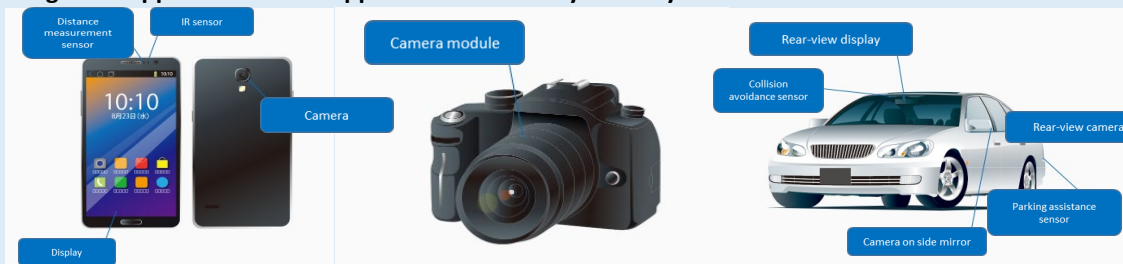

We are always making efforts to contribute the world with our precision processing technology.

- To contribute global society with supplying glass and system for clinical tests in Life-Science field.
